Student declaration and statement of authorship

1. I hold a copy of this work that can be produced if the original is lost/damaged;
2. This work is my original work and no part of it has been copied from any other student's work or from any other source except where due acknowledgement is made;
3. No part of this work has been written for me by any other person except where such collaboration has been authorised by the trainer/assessor;
4. I give permission for this work to be reproduced, communicated, compared and archived for the purpose of detecting plagiarism;
5. I give permission for a copy of my marked work to be retained by First Intervention for review and comparison, including review by external assessors and/or subject matter experts;
6. I understand that:
 - a. plagiarism is the presentation of the work, idea or creation of another person as though it is my own. It is a form of cheating and is a very serious academic offence that may lead to the cancellation of my enrolment. Plagiarised material can be drawn from, and presented in, written, graphic and visual form, including electronic data and oral presentations. Plagiarism occurs when the origin of the material used is not appropriately cited.
 - b. plagiarism includes the act of assisting or allowing another person to plagiarise or to copy my work.

Written Activity

Your task is to write the answers to each of the following questions. Answers should exceed 50 words but no more than 200 words for each question.

1. What methods are used for loading and unloading non-emergency patients?

2. Identify and discuss the organisational policies and procedures related to the vehicle used in the transport of emergency patients.

3. Identify and discuss the Acts and Regulations relevant to non-emergency patient transport.

4. What organisational policies and procedures are related to the transport of emergency patients? Briefly discuss each identified.

5. Explain the stock inventory of transport vehicles.

6. Outline the requirements to comply with for the safe storage of pharmacological products.

7. How can pharmacological products be safely disposed of?

8. Identify and outline the protocols for the safe transport of vehicle occupants.
